Yuvraj Singh

8624016814 | yuvrajssingh03@gmail.com | Mumbai, Maharashtra

Summary

As a full-stack web developer, I specialize in React.js and the MERN stack, seamlessly integrating Firebase for scalable and real-time applications. With a proven track record, my commitment to excellence and innovative approach ensures top-notch, feature-rich web solutions. Ready to elevate your digital presence with cutting-edge technology.

Technical Skills

React.js, Next Js, HTML5, CSS3, Typescript, JavaScript, Node.js, Express.js, MongoDB, Tailwind Css, Github, Git

Relevant Experience

Nearbuck | Mumbai, Maharashtra
Full Stack Developer | 12/2022 - Present
I crafted Nearbuck's website and developed their core offerings – intuitive billing and accounting software. My role aimed at enhancing their digital footprint and delivering efficient solutions for seamless business operations.

Projects

Cloud-based Notebook (MERN Stack):

Developed a dynamic notebook application using the MERN stack, seamlessly integrating MongoDB, Express, React.js, and Node.js. This project enables users to store and access notes securely in the cloud, combining functionality with a sleek user interface.

React.js E-commerce Website:

Crafted a robust e-commerce platform using React.js, delivering an engaging and efficient online shopping experience. This project showcases a responsive design, intuitive navigation, and seamless integration of key features for a top-notch e-commerce solution.

Education

K.P.B Hinduja College | Mumbai, Maharashtra
Bachelor of Computer Application | 08/2024
I am currently pursuing a Bachelor's degree in Computer Applications (BCA), where I am acquiring comprehensive knowledge in programming, software development, and IT essentials.
